

Ellipsis Quintet release their second single “Σκοτεινό Νερό - Home Not”

April 11th 2024

The prog/world/jazz band **Ellipsis Quintet**, are continuing the surprise releases, this time with the folk metal song “**Σκοτεινό Νερό - Home Not**”, Σκοτεινό Νερό meaning dark water, in the greek language, a direct quote from the lyrics of the song. They had the luck to feature the extraordinary folk singer **Afrodité Elizavet Radisz** for this track, who with her earthy voice and unmatched expression, instilled life to the lyrics and raised the song to another level.

The song, from the first second is a constant and ever developing crescendo of not only dynamics but also of sounds, timbres and complexity in arrangement, that finally bursts into a wild and powerful, greek traditional style trumpet solo. Only to fall abruptly but gently again with the voice and trumpet lamenting quietly at the end of the song.

A mature composition that shows the long way this band and their band leader Vasilis Nalmpantis have gone since their first album.
